Floji for
Law firms

Bring your practice and your clients closer together.
Secure cloud communication for legal teams and their clients.

floji

More connected, more reliable communication across your whole legal practice. Floji integrates **phone**, **video**, **messaging** and **collaboration tools** into a single platform where you can manage all your team and client conversations.

Why choose Floji for your law firm?

Connect your legal practice

✅ **Work from anywhere.** Give your employees the mobility and flexibility they need to work from anywhere, on any device.

✅ **Dedicated collaboration spaces.** Easily set up shared working spaces for each department and practice area in your firm.

✅ **Share docs and case files.** Store and share documents securely, and instantly pinpoint key information.

✅ **Easy to set up; even easier to use.** Be up and running in no time.

✅ **Business telephony.** Everything a modern law practice needs from its phone system. Keep your existing numbers or let us provide you with new ones.

All your client communication

✅ **One platform. Every channel.** Provide quality legal advice across key communication channels – phone, video, messaging, email, live chat, WhatsApp.

✅ **Capture every interaction.** All your calls and meetings are logged and recorded, allowing you to track billable hours and revisit client interactions.

✅ **Stay on top of caseloads.** Inbuilt client engagement technology detects when a client is awaiting a response, and automatically delivers reminders to your team.

✅ **Greater accessibility.** Attract more clients by deploying IVR client routing, and adding live chat and one-click webcalling to your site.

Floji stands out as a **feature-rich**, yet **affordable** and **easy-to-use** solution that's optimised for the legal sector. No matter the size or specialisation of your practice, Floji gives your legal team the tools to collaborate more effectively and better service your clients.

Get started today. Stay on the free plan for as long as you like. All core features included.
